

K-2 IMPACT

Investigating Mathematical Practices and Classroom Teaching

FACILITATOR TRAINING

K-2 IMPACT is a professional development initiative developed by a statewide group of mathematics leaders in Ohio. IMPACT is coordinated by the Teaching & Learning Collaborative in partnership with districts, universities and ESCs.

JOIN THE PARTNERSHIP

Over 20 IMPACT sites (representing districts, ESCs and universities) have utilized IMPACT as a professional development initiative for K-2 educators.

IMPACT deepens teacher content knowledge and examines instructional practices in mathematics. Site facilitation teams attend a facilitator training and then lead four face-to-face sessions with K-2 educators at their local site.

K-2 EDUCATORS

To date, over **2,000** K-2 educators representing over **550** schools have attended IMPACT programs.

Program content includes:

- Research-based strategies in mathematics
- Student-centered instruction
- Rich, problem-solving tasks
- Learning progressions in mathematics

RESEARCH BASED

IMPACT was previously funded by the Ohio Department of Education's Mathematics Science Partnership (MSP)

grant. K-2 IMPACT meets ESSA Level II Moderate Evidence and ESSA Level III Promising Evidence.

IMPACT for Grades 3-5 is also available as a professional development program and meets the same level of evidence.

JOIN US AND MAKE AN IMPACT IN K-2 MATHEMATICS!

As part of the IMPACT partnership group, TLC will train a team of up to three site facilitators from a district and/or ESC who can then implement a K-2 IMPACT (Year 1) professional development program. Trained facilitators have access to materials needed to conduct each of the sessions. This includes session agendas, powerpoints, and needed program materials. Facilitator training includes the Partnership group cost, which provides up to 25 participant resource binders.

JOIN THE IMPACT PARTNERSHIP

and make an IMPACT in K-2 Mathematics!

We are currently recruiting for 10 new sites to join the K-2 IMPACT Partnership. Each site consists of a team of up to three people who will co-facilitate professional development sessions at the school/district site.

IMPACT 1 FACILITATOR TRAINING

June 8-12, 2020

Worthington, Ohio

9am-4pm

Materials Included in Cost:

- Facilitator Training (lunch included each day)
- Facilitator agendas and session powerpoint
- Facilitator binder
- 25 participant binders

Previous Sites

Since 2006, K-2 IMPACT has been implemented in a variety of districts across Ohio in a variety of formats. Past site partners include:

- Clermont County Educational Service Center
- Columbus City Schools
- Darke County Educational Service Center
- East Central Ohio Educational Service Center
- Gahanna Jefferson Public Schools
- Hilliard City Schools
- Jonathan-Alder Local Schools
- Lancaster City Schools
- Logan Elm Local Schools
- Miami Valley Educational Service Center
- New Boston Local Schools
- Teaching & Learning Collaborative
- Teays Valley Local Schools
- Troy City Schools
- South-Western City Schools
- Springfield City Schools
- Whitehall City Schools
- Worthington City Schools

Program Format

The IMPACT professional development program spans a school year and consists of four day-long face-to-face sessions meeting monthly (September-February). K-2 teachers from participating schools will attend the day face-to-face sessions led by Site Facilitators, learning research-based instructional strategies, experiencing appropriate content-related inquiry activities, and developing a deeper understanding of assessment mechanisms to guide instruction. In between sessions, participants implement exemplar lessons and formative assessment items with students then reconvene to discuss strategies, content, and student understandings. There is flexibility with the format. Sites could choose to lead a 2-day summer session, with two follow-up sessions during the school year or hold four school year sessions.

Program Costs

IMPACT facilitator training includes a week long Summer session (June 2020) for up to three facilitators per site. Sites can represent a single district, multiple districts working together and/or an ESC serving multiple districts. In our experience, the best site team is a strong combination of teachers, coaches, and professional development providers who have a strong interest and passion for mathematics.

The cost for the entire site team to attend the K-2 IMPACT Facilitator training is \$3,500. This includes the training of up to three facilitators and site participant binders for 25 participants. Additional resources (such as resource books, children's literature) can be included at an additional cost or purchased by the site.

Register your Facilitation Team

Please use the link below to register your site team. Teams will be notified regarding next steps within two weeks of registration.
